Trayhurn P Of genes and genomes – and *dark matter* (Editorial). 1
Lütjohann D Sterol autoxidation: from phytosterols to oxyphytosterols (Invited commentary). 3
Cotter AA & Cashman KD Lack of dose-responsive effect of dietary phyto-oestrogens on transepithelial calcium transport in human intestinal-like Caco-2 cells (Short communication). 5
Whanger PD Selenium and its relationship to cancer: an update (Review article). 11
Lewis PD Responses of domestic fowl to excess iodine: a review (Review article). 29
Harrington M, Bennett T, Jakobsen J, Ovesen L, Brot C, Flynn A & Cashman KD The effect of a high-protein, high-sodium diet on calcium and bone metabolism in postmenopausal women and its interaction with vitamin D receptor genotype. 41
Astley SB, Hughes DA, Wright AJA, Elliott RM & Southon S DNA damage and susceptibility to oxidative damage in lymphocytes: effects of carotenoids *in vitro* and *in vivo*. 53
Astley SB, Elliott RM, Archer DB & Southon S Evidence that dietary supplementation with carotenoids and carotenoid-rich foods modulates the DNA damage:repair balance in human lymphocytes. 63
Robson AB, Sykes AR, McKinnon AE & Bell ST A model of magnesium metabolism in young sheep: transactions between plasma, cerebrospinal fluid and bone. 73
Kim MK, Sasaki S, Sasazuki S, Okubo S, Hayashi M & Tsugane S Long-term vitamin C supplementation has no markedly favourable effect on serum lipids in middle-aged Japanese subjects. 81
Palazzetti S, Rousseau A-S, Richard M-J, Favier A & Margaritis I Antioxidant supplementation preserves antioxidant response in physical training and low antioxidant intake. 91
Grandgirard A, Martine L, Demaison L, Cordelet C, Joffre C, Berdeaux O & Semon E Oxyphytosterols are present in plasma of healthy human subjects. 101
Fidler MC, Walczyk T, Davidsson L, Zeder C, Sakaguchi N, Juneja LR & Hurrell RF A micronised, dispersible ferric pyrophosphate with high relative bioavailability in man. 107
Bohn T, Walczyk T, Davidsson L, Pritzkow W, Klingbeil P, Vogl J & Hurrell RF Comparison of urinary monitoring, faecal monitoring and erythrocyte analysis of stable isotope labels to determine magnesium absorption in human subjects. 113
Wang Z, Yin S, Zhao X, Russell RM & Tang G β-Carotene–vitamin A equivalence in Chinese adults assessed by an isotope dilution technique. 121
McMullen S, Gardner DS & Langley-Evans SC Prenatal programming of angiotensin II type 2 receptor expression in the rat. 133
Lomer MCE, Kodjabashia K, Hutchinson C, Greenfield SM, Thompson RPH & Powell JJ Intake of dietary iron is low in patients with Crohn's disease: a case–control study. 141
Westerterp KR, Meijer EP, Goris AHC & Kester ADM Alcohol energy intake and habitual physical activity in older adults. 149
Pialoux V, Mischler I, Mounier R, Gachon P, Ritz P, Coudert J & Fellmann N Effect of equilibrated hydration changes on total body water estimates by bioelectrical impedance analysis. 153
Trayhurn P *BJN* 'Citation Classic'. 160
Jackson AS & Pollock ML Generalized equations for predicting body density of men. (*BJN* 'Citation Classic'). 169
Price EC Nutrient requirements of non-human primates (Book review). 169
Hanley M Practical statistics for the biological sciences (Book review). 170
Opara EI The efficacy and safety of Chinese herbal medicines (Invited Commentary). 171
Demeyer D & Fievez V Is the synthesis of rumen bacterial protein limited by the availability of pre-formed amino acids and/or peptides? 175
Beattie JH & Kwun I-S Is zinc deficiency a risk factor for atherosclerosis? (Horizons in Nutritional Science) 177
Jittakhot S, Schonewille J Th, Wouterse HS, Yuangklang C & Beynen AC The relationships between potassium intakes, transmural potential difference of the rumen epithelium and magnesium absorption in wethers. 183
Valeille K, Gripois D, Blouquit M-F, Souidi M, Riottot M, Bouthegourd J-C, Sérougne C &

Martin J-C Lipid atherogenic risk markers can be more favourably influenced by the *cis*-9,*trans*-11-octadecadienoate isomer than a conjugated linoleic acid mixture or fish oil in hamsters. 191
Courtois P, Sener A, Scott FW & Malaisse WJ Disaccharidase activity in the intestinal tract of Wistar–Furth, diabetes-resistant and diabetes-prone BioBreeding rats. 201
Ostrowska E, Gabler NK, Sterling SJ, Tatham BG, Jones RB, Eagling DR, Jois M & Dunshea FR Consumption of brown onions (*Allium cepa* var. *cavalier* and var. *destiny*) moderately modulates blood lipids, haematological and haemostatic variables in healthy pigs. 211
Matsuo T & Takeuchi H Effects of structured medium- and long-chain triacylglycerols in diets with various levels of fat on body fat accumulation in rats. 219
Yago MD, Diaz RJ, Ramirez R, Martinez MA, Mañas M & Martinez-Victoria E Dietary-induced changes in the fatty acid profile of rat pancreatic membranes are associated with modifications in acinar cell function and signalling. 227
Kumahara H, Schutz Y, Ayabe M, Yoshioka M, Yoshitake Y, Shindo M, Ishii K & Tanaka H The use of uniaxial accelerometry for the assessment of physical-activity-related energy expenditure: a validation study against whole-body indirect calorimetry. 235
Soares MJ, Cummings SJ, Mamo JCL, Kenrick M & Piers LS The acute effects of olive oil *v.* cream on postprandial thermogenesis and substrate oxidation in postmenopausal women. 245
Atasoglu C, Guliye AY & Wallace RJ Use of stable isotopes to measure *de novo* synthesis and turnover of amino acid-C and -N in mixed micro-organisms from the sheep rumen *in vitro*. 253
Wachtel-Galor S, Tomlinson B & Benzie IFF *Ganoderma lucidum* ('Lingzhi'), a Chinese medicinal mushroom: biomarker responses in a controlled human supplementation study. 263
Kitessa SM, Gulati SK, Simos GC, Ashes JR, Scott TW, Fleck E & Wynn PC Supplementation of grazing dairy cows with rumen-protected tuna oil enriches milk fat with *n*-3 fatty acids without affecting milk production or sensory characteristics. 271
Schmidt MK, Muslimatun S, West CE, Schultink W & Hautvast JGAJ Mental and psychomotor development in Indonesian infants of mothers supplemented with vitamin A in addition to iron during pregnancy. 279
Davidsson L, Ziegler EE, Kastenmayer P, van Dael P & Barclay D Dephytinisation of soyabean protein isolate with low native phytic acid content has limited impact on mineral and trace element absorption in healthy infants. 287
Wolever TMS Effect of blood sampling schedule and method of calculating area under the curve on validity and precision of glycaemic index values. 295
Hodgson JM, Chan SY, Puddey IB, Devine A, Wattanapenpaiboon N, Wahlqvist ML, Lukito W, Burke V, Ward NC, Prince RL & Croft KD Phenolic acid metabolites as biomarkers for tea- and coffee-derived polyphenol exposure in human subjects. 301
Osório MM, Lira PIC & Ashworth A Factors associated with Hb concentration in children aged 6–59 months in the State of Pernambuco, Brazil. 307
Sanderson P, Johnson IT, Mathers JC, Powers HJ, Downes CS, McGlynn AP, Dare R, Kampman E, Pool-Zobel BL, Bingham SA & Rafter JJ Emerging diet-related surrogate end points for colorectal cancer: UK Food Standards Agency diet and colonic health workshop report. 315
Langley-Evans S Introduction to human nutrition (Book review). 323
Forsythe SJ Food Safety: contaminants and toxins (Book review). 323
Murphy JL Stable isotopes in human nutrition. Laboratory methods and research applications (Book review). 324
Brameld JM The influence of undernutrition on skeletal muscle development (Invited commentary). 327
van Baak M Adaptive thermogenesis during over- and underfeeding in man (Invited commentary). 329
Bayol S, Jones D, Goldspink G & Stickland NC The influence of undernutrition during gestation on skeletal muscle cellularity and on the expression of genes that control muscle growth. 331
de Silva PP, Davis PJ & Cheema SK Hyperlipidaemic effect of fish oil in Bio F_1B hamsters. 341
van Nieuwenhoven MA, Valks SDM, Sobczak S, Riedel WJ & Brummer R-JM Acute tryptophan depletion slows gastric emptying in females. 351
Dehghan-Kooshkghazi M & Mathers JC Starch digestion, large-bowel fermentation and intestinal mucosal cell proliferation in rats treated with the α-glucosidase inhibitor acarbose. 357
Ritskes-Hoitinga J, Grooten HNA, Wienk KJH, Peters M, Lemmens AG & Beynen AC Lowering dietary phosphorus concentrations reduces kidney calcification, but does not adversely affect growth, mineral metabolism, and bone development in growing rabbits. 367

Kushiro M, Takahashi Y & Ide T Species differences in the physiological activity of dietary lignan (sesamin and episesamin) in affecting hepatic fatty acid metabolism. 377
Batra N, Nehru B & Bansal MP Reproductive potential of male Portan rats exposed to various levels of lead with regard to zinc status. 387
Puska P, Korpelainen V, Høie LH, Skovlund E & Smerud KT Isolated soya protein with standardised levels of isoflavones, cotyledon soya fibres and soya phospholipids improves plasma lipids in hypercholesterolaemia: a double-blind, placebo-controlled trial of a yoghurt formulation. 393
Sripanyakorn S, Jugdaohsingh R, Elliott H, Walker C, Mehta P, Shoukru S, Thompson RPH & Powell JJ The silicon content of beer and its bioavailability in healthy volunteers. 403
Tauson A-H, Forsberg M & Chwalibog A High leptin in pregnant mink (*Mustela vison*) may exert anorexigenic effects: a permissive factor for rapid increase in food intake during lactation. 411
Yeh S-L, Lai Y-N, Shang H-F, Lin M-T & Chen W-J Effects of glutamine supplementation on innate immune response in rats with gut-derived sepsis. 423
Kovacs EMR, Lejeune MPGM, Nijs I & Westerterp-Plantenga MS Effects of green tea on weight maintenance after body-weight loss. 431
Näslund E, King N, Mansten S, Adner N, Holst JJ, Gutniak M & Hellström PM Prandial subcutaneous injections of glucagon-like peptide-1 cause weight loss in obese human subjects. 439
Ritchie MR, Morton MS, Deighton N, Blake A & Cummings JH Plasma and urinary phyto-oestrogens as biomarkers of intake: validation by duplicate diet analysis. 447
Huxley RR & Neil HAW Does maternal nutrition in pregnancy and birth weight influence levels of CHD risk factors in adult life? 459
Kim J & Chan MM Acculturation and dietary habits of Korean Americans. 469
Macias AE Experimental demonstration of human weight homeostasis: implications for understanding obesity. 479
Gibbons MRD, Henry CJK, Ulijaszek SJ & Lightowler HJ Intra-individual variation in RMR in older people. 485
Sanderson P, Sattar N, Olthof M, Grimble RF, Calder PC, Griffin BA, de Roos NM, Belch JJF, Muller DPR & Vita JA Dietary lipids and vascular function: UK Food Standards Agency workshop report. 491
Brameld J Sheep nutrition (Book review). 501
O'Reilly J Molecular aspects of human nutrition (Book review). 501
Sculley D Sports nutrition (Book review). 502
Meyer HE Calcium and osteoporotic fractures (Invited commentary). 505
Baldi A, Losio MN, Cheli F, Rebucci R, Sangalli L, Fusi E, Bertasi B, Pavoni E, Carli S & Politis I Evaluation of the protective effects of α-tocopherol and retinol against ochratoxin A cytotoxicity (Short communication). 507
Magee PJ & Rowland IR Phyto-oestrogens, their mechanism of action: current evidence for a role in breast and prostate cancer (Review artilce). 513
Takeuchi T, Shimizu H, Ando K & Harada E Bovine lactoferrin reduces plasma triacylglycerol and NEFA accompanied by decreased hepatic cholesterol and triacylglycerol contents in rodents. 533
Chikunya S, Demirel G, Enser M, Wood JD, Wilkinson RG & Sinclair LA Biohydrogenation of dietary *n*-3 PUFA and stability of ingested vitamin E in the rumen, and their effects on microbial activity in sheep. 539
Demirel G, Wachira AM, Sinclair LA, Wilkinson RG, Wood JD & Enser M Effects of dietary *n*-3 polyunsaturated fatty acids, breed and dietary vitamin E on the fatty acids of lamb muscle, liver and adipose tissue. 551
Faughnan MS, Hawdon A, Ah-Singh E, Brown J, Millward DJ & Cassidy A Urinary isoflavone kinetics: the effect of age, gender, food matrix and chemical composition. 567
Scislowski V, Durand D, Gruffat-Mouty D, Motta C & Bauchart D Linoleate supplementation in steers modifies lipid composition of plasma lipoproteins but does not alter their fluidity. 575
Shiau S-Y & Lu L-S Dietary sodium requirement determined for juvenile hybrid tilapia (*Oreochromis niloticus* × *O. aureus*) reared in fresh water and seawater. 585
Archer BJ, Johnson SK, Devereux HM & Baxter AL Effect of fat replacement by inulin or lupin-kernel fibre on sausage patty acceptability, post-meal perceptions of satiety and food intake in men. 591
Bohn T, Davidsson L, Walczyk T & Hurrell RF Fractional magnesium absorption is significantly lower in human subjects from a meal served with an oxalate-rich vegetable, spinach,

as compared with a meal served with kale, a vegetable with a low oxalate content. 601
Hoey L, Rowland IR, Lloyd AS, Clarke DB & Wiseman H Influence of soya-based infant formula consumption on isoflavone and gut microflora metabolite concentrations in urine and on faecal microflora composition and metabolic activity in infants and children. 607
Harrison RA, Holt D, Pattison DJ & Elton PJ Are those in need taking dietary supplements? A survey of 21 923 adults. 617
Xu L, McElduff P, D'Este C & Attia J Does dietary calcium have a protective effect on bone fractures in women? A meta-analysis of observational studies. 625
Warensjö E, Jansson J-H, Berglund L, Boman K, Ahrén B, Weinehall L, Lindahl B, Hallmans G & Vessby B Estimated intake of milk fat is negatively associated with cardiovascular risk factors and does not increase the risk of a first acute myocardial infarction A prospective case–control study. 635
Savva SC, Chadjigeorgiou C, Hatzis C, Kyriakakis M, Tsimbinos G, Tornaritis M & Kafatos A Association of adipose tissue arachidonic acid content with BMI and overweight status in children from Cyprus and Crete. 643
Poskitt EME Disease-related malnutrition: an evidence based approach to treatment (Book review). 651
Burdge GC Lipid biochemistry: an introduction (Book review). 651
Himes JH & DR Jacobs Jr Food-based nutrition education and hygiene can improve the growth of stunted children (Invited commentary). 657
Thomson CD Selenium and iodine intakes and status in New Zealand and Australia (Review article). 661
Sharma R, Alexander TW, John SJ, Forster RJ & McAllister TA Relative stability of transgene DNA fragments from GM rapeseed in mixed ruminal cultures. 673
Petridou A, Gerkos N, Kolifa M, Nikolaidis MG, Simos D & Mougios V Effect of exercise performed immediately before a meal of moderate fat content on postprandial lipaemia. 683
Bento OP, Martins JM, Lança MJ, de Abreu MC, Viegas-Crespo AM, Freire JPB, Almeida JAA & Riottot M Effects of ileo-rectal anastomosis on cholesterol metabolism in pigs fed either casein or extruded soya beans. 689
Bates CJ, Jones KS & Bluck LJC Stable isotope-labelled vitamin C as a probe for vitamin C absorption by human subjects. 699
Breithaupt DE, Weller P, Wolters M & Hahn A Comparison of plasma responses in human subjects after the ingestion of 3R,3R′-zeaxanthin dipalmitate from wolfberry (*Lycium barbarum*) and non-esterified 3R,3R′-zeaxanthin using chiral high-performance liquid chromatography. 707
Cheng Y, Ohlsson L & Duan R-D Psyllium and fat in diets differentially affect the activities and expressions of colonic sphingomyelinases and caspase in mice. 715
Christensen HR, Brix S & Frøkiær H Immune response in mice to ingested soya protein: antibody production, oral tolerance and maternal transfer. 725
Zhang M & Fritsche KL Fatty acid-mediated inhibition of IL-12 production by murine macrophages is independent of PPARγ. 733
Hosea HJ, Rector ES & Taylor CG Dietary repletion can replenish reduced T cell subset numbers and lymphoid organ weight in zinc-deficient and energy-restricted rats. 741
Duncan SH, McWilliam Leitch EC, Stanley KN, Richardson AJ, Laven RA, Flint HJ & Stewart CS Effects of esculin and esculetin on the survival of *Escherichia coli* O157 in human faecal slurries, continuous-flow simulations of the rumen and colon and in calves. 749
O'Sullivan SM, Woods JA & O'Brien NM Use of Tween 40 and Tween 80 to deliver a mixture of phytochemicals to human colonic adenocarcinoma cell (CaCo-2) monolayers. 757
Conway R, Robertson C, Dennis B, Stamler J & Elliott P for the INTERMAP Research Group Standardised coding of diet records: experiences from INTERMAP UK. 765
Tamura T, Goldenberg RL, Johnston KE & Chapman VR Relationship between pre-pregnancy BMI and plasma zinc concentrations in early pregnancy. 773
Salehi M, Kimiagar SM, Shahbazi M, Mehrabi Y & Kolahi AA Assessing the impact of nutrition education on growth indices of Iranian nomadic children: an application of a modified beliefs, attitudes, subjective-norms and enabling-factors model. 779
Payet M, Esmail MH, Polichetti E, Le Brun G, Adjemout L, Donnarel G, Portugal H & Pieroni G Docosahexaenoic acid-enriched egg consumption induces accretion of arachidonic acid in erythrocytes of elderly patients. 789

Acknowledgement to Referees. 799
Laville M Could glycaemic index be the basis of simple nutritional recommendations? (Invited commentary). 803
Rowland I Probiotics and colorectal cancer risk (Invited commentary). 805
Veach J Functional dichotomy: glutathione and vitamin E in homeostasis relevant to primary open-angle glaucoma (Review article). 809
Leung LK, Po LS, Lau TY & Yuen YM Effect of dietary flavonols on oestrogen receptor transactivation and cell death induction. 831
Arts ICW, Sesink ALA, Faassen-Peters M & Hollman PCH The type of sugar moiety is a major determinant of the small intestinal uptake and subsequent biliary excretion of dietary quercetin glycosides. 841
Cermak R, Landgraf S & Wolffram S Quercetin glucosides inhibit glucose uptake into brush-border-membrane vesicles of porcine jejunum. 849
Robin S, Maupoil V, Laurant P, Jacqueson A & Berthelot A Effect of a methionine-supplemented diet on the blood pressure of Sprague–Dawley and deoxycorticosterone acetate–salt hypertensive rats. 857
Takahashi T, Goto M & Sakata T Viscoelastic properties of the small intestinal and caecal contents of the chicken. 867
Xu JZ, Yeung SYV, Chang Q, Huang Y & Chen Z-Y Comparison of antioxidant activity and bioavailability of tea epicatechins with their epimers. 873
Mattacks CA, Sadler D & Pond CM The effects of dietary lipids on dendritic cells in perinodal adipose tissue during chronic mild inflammation. 883
Miles EA, Banerjee T, Dooper MMBW, M'Rabet L, Graus YMF & Calder PC The influence of different combinations of γ-linolenic acid, stearidonic acid and EPA on immune function in healthy young male subjects. 893
Peuranen S, Tiihonen K, Apajalahti J, Kettunen A, Saarinen M & Rautonen N Combination of polydextrose and lactitol affects microbial ecosystem and immune responses in rat gastro-intestinal tract. 905
Duncan SH, Holtrop G, Lobley GE, Calder AG, Stewart CS & Flint HJ Contribution of acetate to butyrate formation by human faecal bacteria. 915
Oberreuther-Moschner DL, Jahreis G, Rechkemmer G & Pool-Zobel BL Dietary intervention with the probiotics *Lactobacillus acidophilus* 145 and *Bifidobacterium longum* 913 modulates the potential of human faecal water to induce damage in HT29clone19A cells. 925
Kay CD, Mazza G, Holub BJ & Wang J Anthocyanin metabolites in human urine and serum. 933
Ramirez-Tortosa MC, García-Alonso J, Vidal-Guevara ML, Quiles JL, Periago MJ, Linde J, Mesa MD, Ros G, Abellán P & Gil Á Oxidative stress status in an institutionalised elderly group after the intake of a phenolic-rich dessert. 943
Shirreffs SM, Merson SJ, Fraser SM & Archer DT The effects of fluid restriction on hydration status and subjective feelings in man. 951
Weinbrenner T, Züger M, Jacoby GE, Herpertz S, Liedtke R, Sudhop T, Gouni-Berthold I, Axelson M & Berthold HK Lipoprotein metabolism in patients with anorexia nervosa: a case–control study investigating the mechanisms leading to hypercholesterolaemia. 959
Ramdath DD, Isaacs RLC, Teelucksingh S & Wolever TMS Glycaemic index of selected staples commonly eaten in the Caribbean and the effects of boiling *v.* crushing. 971
Flint A, Møller BK, Raben A, Pedersen D, Tetens I, Holst JJ & Astrup A The use of glycaemic index tables to predict glycaemic index of composite breakfast meals. 979
Yoshioka M, Imanaga M, Ueyama H, Yamane M, Kubo Y, Boivin A, St-Amand J, Tanaka H & Kiyonaga A Maximum tolerable dose of red pepper decreases fat intake independently of spicy sensation in the mouth. 991
Provencher V, Drapeau V, Tremblay A, Després J-P, Bouchard C & Lemieux S Eating behaviours, dietary profile and body composition according to dieting history in men and women of the Québec Family Study. 997
García-Closas R, Berenguer A, Tormo MJ, Sánchez MJ, Quirós JR, Navarro C, Arnaud R, Dorronsoro M, Chirlaque MD, Barricarte A, Ardanaz E, Amiano P, Martinez C, Agudo A & González CA Dietary sources of vitamin C, vitamin E and specific carotenoids in Spain. 1005
Vrentzos GE, Papadakis JA, Malliaraki N, Zacharis EA, Mazokopakis E, Margioris A, Ganotakis ES & Kafatos A Diet, serum homocysteine levels and ischaemic heart disease in a Mediterranean population. 1013
